

As Manager of KIWA and KIWA-fm I am proud to report that our stations and most small market stations in our area are committed to local broadcast service. Our programming includes..

- At least 4 Community event announcements each hour, 24 hrs
- 30 to 40 community announcements on a daily community calendar
- 5 agricultural market reports each day live from a local commodity office.

- 5 local news casts each day, with programming interrupted at anytime necessary for important announcements.

- Each morning Live news broadcasts of 5-15 minutes from four area communities

- Live coverage of area High School events.

- Public Service announcements as necessary at the request of local and area causes.

- 4 weather summaries each hour, with the entire staff available when necessary for severe weather situations.

The staff is dedicated to serving the area, and there are thousands of radio stations in this country with that same committment.
